

Classroom activity 2

A client asks for an item in the market factory. The market factory inspect if the client has the necessary money to pay for it. Otherwise, the order would be rejected.

Get the order
Check bank account information
Make a decision

START PROGRAM: Bank account

```
DECLARE  
bank_account = 10000  
product = int(input("What is the cost of the  
product?"))  
GET product  
IF product <= bank_account  
    PRINT("payment succesful")  
ELSE  
    PRINT ("payment failed")  
END PROGRAM
```
