

Classroom activity 2

A client asks for an item in the market factory. The market factory inspect if the client has the necessary money to pay for it. Otherwise, the order would be rejected.

Get the order
Check bank account information
Make a decision

START PROGRAM: Bank account

DECLARE
bank_account = 10000
product = int(input("What is the cost of the product?"))
GET product
IF product <= bank_account
 PRINT("payment succesful")
ELSE
 PRINT ("payment failed")
END PROGRAM
