# Exercise 6

Draw a flowchart and write the pseudocode of a counter that starts in 0 and ends with 100

```
Start
  │
  ▼
Set counter = 1, add = 0
  │
  ▼
If counter <= 100
  │ if              │ no
  ▼                 ▼
add = add + counter   Print add
  │                   │
  ▼                   ▼
counter = counter + 1   End
```

START PROGRAM Loop

GET
    counter = 1, add = 0
    WHILE (counter <= 100)
        add = add + 1
        counter = counter + 1
PRINT(add)

END PROGRAM
